

Incredible SatGuide GPS Stories

23rd July 2010, Hyderabad, India – SatNav Technologies, pioneers in GPS Navigation in India since 2005 and market leaders today, Announced SatGuide GPS Stories Contest winners

SatGuide GPS navigation is an extraordinary navigation, as it is not you who navigates, but SatGuide Gadget that tells you how to reach to your destination. SatGuide does the job much better, than you ever could. Especially the systems with voice output are a great help, without the slightest distraction for the driver. Everybody could use one and everybody can use one, because you really do not need any special skill to operate these car SatGuide GPS systems.

SatGuide had come up with a contest named SatGuide GPS Stories Contest and invited its customer to share their experience with GPS devices in India or during their visit / stay abroad. They were asked to put the story as plain facts, up to 250 words. SatGuide GPS Contest turned an interesting and alluring game. SatGuide reputed brand name and integration with quality oriented GPS Gadget and user friendly Application has enabled it to attract a lot of contestants.

SatGuide GPS Stories are influential. They create believability, credibility, and a sense of security for customer and some have the magic power of persuasion. SatGuide Device helped users in a situation where they needed it the most. SatGuide is happy to share details of Winners of SatGuide GPS Contest where 100' of stories were received during the contest.

SatGuide hereby announce that Mr. KGBHAT , Mr.Nityn Bulchandani , Dr. Karanvir Singh, New Delhi , Rijeesh.R, Chennai , K.Murali Krishna, Sr.Manager Training, Coromandel Training Academy are winners of SatGuide GPS Contest and they won “ Prizes worth of Rs. 25,000 /- in cash”

Mr.K G BHAT story is as follows,

Due to navigational problem on unknown road, I was abstained for a long drive. But recently when I had a satguide device, I have decided to drive to my native in kerala via Mumbai. I started from Surat Hazira to Mumbai with SatGuide device on with necessary in puts. Really I was surprised to note that every street has been shown on the map and my car was absolutely on the road. The

device uses nearest route to reach the destination and speaks whenever there is a turning, 2 km before, then 1 km before, then 500 mts and 200 mts and finally on turning. When I change the route it used to recalculate the route immediate within 1 minute and let us know the nearest route. If I don't care for a u turn told by the device I was forced to comeback after some time. When I was nearing Mumbai than I was little bit confused then I asked my 10 years old son to hold the device and look in to it. The device guided us very accurately turn by turn. And very easily we reached vashi without any body's help. Then I started to CBD with my device and drive through the road and the device really guided me through the road to cbd. From cbd next morning we started for hubli with this device. By then my son was familiar with the device and he use to show the route. When I reached hubli I did not go by the route and a shop keeper told me to go back to reach the bus stand as the device was showing the correct route. Then I had been to Udupi Krishna's temple, the device shown me till the car parking area just behind the temple. Then we had been to kasaragod via Mangalore. It was really a memorable journey with this device on the car.

The remaining winning stories to follow in the coming days...
